The Future Caucus works directly with our nation's leading **millennial and Gen Z** policymakers on both a national and state level to bridge the partisan divide and lead a new era of collaborative governance.

We connect them through their **local Future Caucus** and the national **Future Caucus Network**, training them on the skills needed to be an **effective, bridge-building legislator**, catalyzing policy action by curating the experts and resources needed to advance future-oriented solutions, and amplifying their stories to shift the narrative around what's possible in our democracy.

**Our lawmakers have a **fresh** and **optimistic** take on big problems that have existed for ages.**
